

Karin Zohar

FULL STACK DEVELOPER

0534207374 | karinzohar3@gmail.com | [LinkedIn](#) | [GitHub](#) | [Personal Website](#)

Full Stack Developer experienced in building and deploying scalable end-to-end web applications using **React, TypeScript, and Node.js**. Proficient in modern **Microservices architecture**, serverless workflows, and AI-driven development. Experienced in managing deployments across distributed environments while leveraging **AI integration** and **Cursor** to accelerate delivery and maintain high code quality.

Experience

City Systems | Front End Developer | 2024–2025

- **Built and owned** a production-scale, customer-facing web application using **React, TypeScript** and **Node.js**, delivering a pixel-perfect, high-performance, and accessible user experience from the ground up.
- **Integrated REST APIs** and Collaborated on **API design** with backend engineers for seamless integration in a remote environment. **Optimized server-state management** using **TanStack Query**.
- **Maintained high code quality** through **Git** workflows, detailed pull request reviews, and comprehensive component documentation using **Storybook**.

Coding Academy | Full Stack Development Bootcamp | 2023

- **Developed end-to-end applications** using **React, Vue, Node.js** and **Express**, implementing complex logic and responsive UI designs.
- Built and integrated **REST APIs** using **MongoDB**, focusing on efficient schema design and testing with **Postman**.
- Delivered complete, production-ready projects under tight deadlines, collaborating in team environments using **Git** and **executing full-cycle deployments** of personal and team projects to **Vercel** and **Render**.

Check Point Software Technologies | 2021–2023 (Internal promotion)

MIS Application Helpdesk Administrator (2023)

- **Optimized enterprise applications** by providing high-tier technical support to global clients and system administration, consistently exceeding SLA targets.
- **Resolved complex software bugs** and permission bottlenecks by collaborating directly with engineering teams.
- Administered **enterprise-level infrastructure systems**, managed user permissions, licensing and onboarding.

Order Management Expert (2021-2023)

- Managed complex, **high-value B2B transactions** with **SAP, Salesforce**, earning Expert-level certification.
- **Automated data analysis** of 1,000+ Jira tickets via advanced Excel, **increasing training efficiency by 30%**.

IDF 9900 Unit, Intelligence Corps | Precise Mapping and GIS Specialist | 2018–2020

- Designed and delivered GIS, spatial data, and digital image processing solutions for military clients.
- Developed intelligence tools for senior Intelligence Corps stakeholders now used by 20+ military units.

Technical Skills

- Frontend Ecosystem: **TypeScript, React, Vue.js**, HTML5, CSS3 (SASS). Component-driven development with **TanStack Query, Ant Design, MUI**, and **Storybook**.
- Backend & API: **Node.js (Express), Python, Serverless Functions**. Implementation of **REST APIs** and **OpenAI API** integrations. **OpenAPI, Swagger, Postman**.
- Database: **PostgreSQL, MySQL (SQL)**, and **MongoDB**.
- Cloud & Workflow: **Vercel, Render, Docker, Git**. AI-augmented coding via **Cursor** and automated AI workflows.

Education

2023 – Graduate, Coding Academy Full Stack Development Bootcamp

2018 – Graduated with honors, Amal Multidisciplinary High School, Hadera

2016 – High-achieving students program, Tel Aviv University.
